

WiFi CampPro 3 is our upgraded system designed for retrieving and extending Internet access in an RV or yacht from remote WiFi hotspots

Thanks to this upgraded version of the outdoor unit (Tube-UAC2), the WiFi CampPro 3 is now capable of connecting to dual-band WiFi5 (2.4 or 5 GHz, a/b/g/n/ac standards) hotspots.

With detailed printed instructions, easy to use QR code based setup, this kit can be quickly setup even by inexperienced users.

If you need to boost a 2.4 or 5 GHz WiFi signal to multiple devices at once in your RV or boat, the WiFi CampPro 3 is the perfect choice!

Key features

- Outdoor unit with WiFi5 (802.11ac) support (Tube-UAC2)
- Support for dual-band (2.4 and 5 GHz) WiFi hotspots
- High-gain omni-directional antenna for Tube-UAC2
- Indoor unit with WiFi4 (802.11n) support (R36AH)
- Wall socket and car power adapters in bundle
- Up to 8 m distance between units (USB cable)
- QR code based, intuitive device configuration

R36AH (indoor unit)

Chipset	Qualcomm™ QCA9531
RAM, flash	128 MB of DDR2, 16 MB of SPI NOR flash
IEEE 802.11 WiFi standards	b/g/n (2.4 GHz)
Data rate	300 Mbps
USB	1× USB 2.0 Type-A
Ethernet	2× Fast Ethernet with ESD protection
Button, LED	2× push-button, 6× LED

Tube-UAC2 (outdoor unit)

Chipset	MediaTek™ MT7610U
IEEE 802.11 WiFi standards	a/b/g/n/ac (2.4 and 5 GHz)
Data rate	433 Mbps
Interface	USB 2.0
Antenna connector	Type-N (female)

AOA-2458-79AM (antenna for outdoor unit)

Frequency range	2400~2500 MHz 5150~5875 MHz
Gain	7 dBi (2.4 GHz) 9 dBi (5 GHz)
Polarization	Linear, vertical
Antenna connector	Type-N (male)

- 1 Indoor unit (R36AH) with external antenna
- 2 Outdoor unit (Tube-UAC2)
- 3 Antenna for outdoor unit (AOA-2458-79AM)
- 4 USB 2.0 cable (8 m length)
- 5 Wall socket and car power adapters
- 6 Installation accessories
- 7 RJ45 Ethernet patch cable
- 8 Printed installation guide
- 9 Label stickers with QR code for WiFi access
